

WEATHER SPOTTER TRAINING

Do you like the weather and/or want to learn more about observing it?

Do you want to provide valuable support to the **National Weather Service**, especially during the **Monsoon Season**?

If so, then we want to see **YOU!**

WHERE: Sunsites Community Center
1216 Treasure Rd
Pearce, AZ

WHEN: Friday May 18, 2018 at 6:00 P.M.

Topics covered include:

- Basic Thunderstorm Features
- Spotter Safety
- The need for Skywarn Spotters
- Recognizing Severe Weather
- Storm Reporting Best Practices
- Interactive Review & Quiz

-
- You only need to attend one 90-minute training session to be certified as a SKYWARN spotter.
 - Registration is NOT required and the training is **FREE**.
 - This training provides a great opportunity for **CURRENT** spotters to refresh their skills, and for **NEW** spotters to learn skills that can help their community.
 - We recommend attending a spotter training session every 3-5 years to keep current with the latest spotting and reporting methods.
-
